List of countries by life expectancy

From Wikipedia, the free encyclopedia

See also: List of countries by past life expectancy

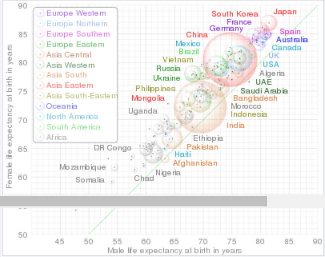
Methodology [edit]

The life expectancy is shown separately for males and for females, as well as a combined figure. Several non-sovereign entities and territories are also included in this list.

The figures reflect the quality of healthcare in the countries listed as well as other factors including HIV infections.

From the beginning of the current century there is a tendency to also estimate **Healthy life expectancy** (HALE) — the average number of years that a person can expect to live in "full health".[1][2]

example, due to poor reporting in some countries and various local standards in collecting statistics. This is especially true for Healthy life expectancy, the definition of which criteria may change over time, even within a country.



Comparison of average female and male life expectancy as defined by WHO for 2019. Open the original chart in a separate tab and hover over a bubble to highlight it. The squares of bubbles are proportional to country population according to estimation of the UN for 2019.

World Bank Group (2020) [edit]

Data of the World Bank Group for 2020.[3][4][5] The values in the World Bank Group tables are rounded. All calculations were done on raw data, therefore, due to the nuances of rounding, in some places illusory inconsistencies of indicators arose, with a size of 0.01 year.

	Countries	all	male	female	gender gap	Δ 2019 all	Δ 2019 male	Δ 2019 female	Δ 2019 gen. gap
1	Japan	84.62	81.64	87.74	6.10	0.26	0.23	0.29	0.06

United Nations (2021) [edit]

Shown is the "period life expectancy" at birth. This is the average number of years a newborn would live if age-specific mortality rates in the current year were to stay the same throughout its life. The data is taken from the 2022 United Nations World Population Prospects. It is also used to calculate the Human Development Index[6]

Countries and regions by life expectancy at birth in 2021 (2022 report)[6]

	Countries and regions	Life expectancy at birth			
		All	M	F	Gender life gap

World Health Organization (2019) [edit]

According to data published by World Health Organization in December 2020.[7][8] By default, data is sorted by life expectancy at birth for all population, and in case of equal values by HALE for all population.

	Countries	Life expectancy at birth					HALE at birth					Life expectancy at age 60					HALE at age 60				
		All	M	F	FΔM	Δ 2000	All	M	F	FΔM	Δ 2000	All	M	F	FΔM	Δ 2000	All	M	F	FΔM	Δ 2000
